

ADAM FISHER

SENIOR WEB3 FRONT-END DEVELOPER

CONTACT

 www.adamfisher.xyz

 hello@adamfisher.xyz

 [@agoat0](https://twitter.com/agoat0)

SKILLS

- Front-end Development
- UI/UX & Component Design
- State Management
- Data Fetching
- Performance Optimization
- Web3 & Blockchain
- Software Architecture
- CI/CD
- Development Tools
- Testing & Debugging
- Agile & Collaboration
- Mentorship & Coaching

PROFILE

Senior Front-End Developer with 7+ years of experience crafting scalable, high-performance Web2 and Web3 applications. Proficient in React.js, TypeScript, and blockchain integration with Web3.js and Ethers.js. Skilled in optimizing UI/UX, building tokenized applications, and developing seamless interactions with backend APIs and smart contracts. Adept at delivering intuitive user experiences across traditional web platforms and decentralized ecosystems, with a strong focus on DeFi solutions and scalable front-end architectures.

WORK EXPERIENCE

Onyx Foundation

MAR 2023 - JAN 2025

Senior Full-stack Developer(Web3)

- ✓ Spearheaded the development of decentralized applications (dApps) using React, Next.js, TypeScript, and Wagmi, enhancing scalability and performance
- ✓ Engineered efficient EVM smart contract interactions with Ethers.js and The Graph Protocol, reducing data-fetching latency by 30%
- ✓ Designed and standardized modular front-end components with Tailwind CSS and Storybook, ensuring UI consistency across the platform
- ✓ Integrated Layer 2 scaling solutions (Optimism) in collaboration with blockchain engineers, cutting gas fees by 40%
- ✓ Managed agile sprints, ensuring smooth teamwork between product, design, and engineering teams for efficient development and delivery

SubQuery

APR 2021 - FEB 2023

Senior Front-end and Web3 Developer

- ✓ Developed high-performance front-end interfaces with React, Redux, and Next.js, delivering seamless user experiences
- ✓ Optimized real-time blockchain data visualization by integrating The Graph Protocol for on-chain queries
- ✓ Enhanced DeFi functionality by implementing complex smart contract interactions using Ethers.js and Web3.js
- ✓ Designed and deployed a DeFi lending platform UI, enabling tokenized collateral management and real-time interest accrual tracking
- ✓ Elevated front-end efficiency by 35% through API call optimization and strategic use of React.memo and useCallback

CERTIFICATIONS & TRAINING

- React.js Advanced Certification (2020)

WORK EXPERIENCE

ePages

JUN 2019 - MAR 2021

Front-end Web Developer

- ✓ Crafted responsive, cross-browser compatible user interfaces using HTML5, CSS3, JavaScript (ES6+), and Tailwind CSS
- ✓ Developed custom UI components, including modals, carousels, and accordions, cutting page load times by 20%
- ✓ Refined state management with Redux and optimized DOM interactions, boosting client-side performance
- ✓ Strengthened code reliability with Jest and React Testing Library, leading to a 25% reduction in production bugs
- ✓ Partnered with backend teams to seamlessly integrate RESTful APIs and GraphQL endpoints, enhancing data efficiency
- ✓ Designed and executed A/B testing strategies, increasing user engagement rates by 15%

NexTech Solutions

AUG 2017 - MAY 2019

Front-end Developer

- ✓ Contributed to the development and maintenance of web applications using JavaScript, HTML5, CSS3, and Bootstrap
- ✓ Revamped legacy applications by migrating them to React.js and TypeScript, improving maintainability and accelerating development cycles by 30%
- ✓ Enhanced UI interactivity and ensured WCAG compliance, improving accessibility and user engagement
- ✓ Optimized API call efficiency and reduced latency by 25% through close collaboration with senior developers
- ✓ Participated in Agile sprints, stand-up meetings, and code reviews, gaining valuable software development lifecycle experience

EDUCATION

Bachelor of Computer Science

2012 - 2016

Goergia Institue of Technology

GPA: 3.8 / 4.0
